

Professional Summary

- ❖ 1.5 years of experience building scalable web applications using **React.js**, **TypeScript**, and **.NET Core**.
- ❖ Proficient in developing **reusable components**, integrating **RESTful APIs**, and implementing **responsive UI** across devices.
- ❖ Hands-on with **state management (Redux, Context API)**, **unit testing (Jest, React Testing Library)**, and **CI/CD workflows**.
- ❖ Strong collaborator in **Agile teams**, delivering high-quality features through cross-functional teamwork and clean architecture.

Skills

- ❖ **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, React Native, .NET Core, ASP.NET MVC, Entity Framework
- ❖ **Frontend:** HTML5, CSS3, Tailwind CSS, Styled-components, React Router, Next.js (familiar), Emotion
- ❖ **State Management:** Redux, Context API
- ❖ **Testing & QA:** Jest, React Testing Library
- ❖ **Cloud & DevOps:** Azure App Services, Azure SQL, Azure Blob, GitHub Actions, Docker (familiar)
- ❖ **Design & Performance:** Responsive Design, Cross-browser Compatibility, Performance Optimization Techniques
- ❖ **Collaboration:** Agile/Scrum, Code Reviews, Wireframe to Component Translation
- ❖ **Version Control:** Git, GitHub

Experience

Jio Platforms Ltd | Cyber Security Consultant

Dec 2023 - Present

Project : Cybersecurity RFP Tracker & Dashboard

Business Requirement: Develop a robust web dashboard to track cybersecurity RFPs, ensure cross-functional collaboration, and meet enterprise scalability standards.

Key Contribution:

- ❖ Developed new user-facing features using **React.js** and **TypeScript**, enhancing real-time visibility for stakeholders.
- ❖ Built reusable components and implemented **React Router** for seamless navigation.
- ❖ Optimized frontend performance across browsers using **lazy loading**, **memoization**, and **code splitting**.
- ❖ Collaborated with backend developers to integrate **RESTful APIs**, ensuring consistent data handling.
- ❖ Participated in code reviews and advocated for best practices in both frontend and backend.
- ❖ Implemented **role-based access control** and **secure APIs** using .NET Core.
- ❖ Translated Figma designs into pixel-perfect, responsive UI using **CSS3**, **Tailwind CSS**, and **Emotion**.
- ❖ Debugged and resolved UI rendering and logic issues across environments.

Skills:React.js, TypeScript, .NET Core, Azure SQL, Tailwind CSS, REST APIs, Git, Azure App Services

Freelancing Experience

Contract Management App – Freelance Developer

Sep 2022 – Mar 2023 & Oct 2023 – Nov 2023

Project : A full-stack mobile and web-based contract management system built for tracking project progress, handling material requests, managing expenses, and enabling communication between stakeholders.

Business Requirement: Develop an end-to-end solution to digitize and streamline the contract execution workflow, with features like geolocation-based updates, approval hierarchies, and real-time communication—accessible via both mobile and web platforms.

Solutions Implemented :

- ❖ Independently designed and developed the entire system using **React Native** for mobile and **React.js** for the web frontend.
- ❖ Translated Figma-based wireframes into responsive UIs using **styled-components**, **Tailwind CSS**, and **Context API**.
- ❖ Integrated **Google Maps API** for live location tracking and photo geotagging to enhance on-site progress monitoring.
- ❖ Enabled seamless sharing of material request data via **WhatsApp integration** to improve workflow efficiency.
- ❖ Implemented **role-based access control**, approval workflows, and CI/CD using **GitHub Actions**.
- ❖ Deployed backend services via **Azure App Services**, using **.NET Core Web API** and **Azure SQL** for scalable and secure data management.

Skills : React Native, React.js, .NET Core Web API, Azure SQL, Tailwind CSS, Google Maps API, GitHub Actions
